Our professionals are recognized at a national and international level.

We shaped our working culture focused on **providing an excellent service**. Working together with our clients, we achieved a deep understanding of their industries, learnt to appreciate their needs and fully respond to their specific requirements from a legal and commercial perspective.

Our goal is to provide creative and customized solutions. We left behind the traditional concept of a Patent and Trademark Agency to develop our own idea of a dynamic boutique firm. We envision the future with an innovative and disruptive spirit.

We believe that providing only traditional Intellectual and Industrial Property services is not enough. Today, it is imperative to have a macro perspective on **Intangible Assets: image, personal data, reputation, clientele,** and technology-related matters, among others. We encourage you to accept us as strategic allies so as to maximize the potential of your projects.

We are agents of transformation. Each one of us, from our role and personality, strives to improve processes and relationships within the team, towards clients, and with society. We learn, transmit, and change our habits to achieve what we believe is best for everyone.

We are committed to becoming a Certified B Company. We took that path intuitively, as a result of our culture and values. We are committed to our clients and to the environment.

Here we go!

ASSET CREATION

One of the first steps when developing a product or service is to give it a name and an identity: **the brand**.

The brand is the vehicle through which we will share our story. It is one of the most important stages of any project since it builds a relationship between the product or service and the consumer. Moreover, the brand is a sign that creates bonds and makes people feel identified with the product or service and want to acquire it.

The goal of a brand is to be recognized, and the creation of its identity implies understanding how we want to be recognized by consumers.

At **Ojam Bullrich Flanzbaum** we have a team specialized in **naming and branding** ("Be Brand"). We help you develop your identity and your brand, so that you may build the story you want to tell.

Let's think together about your brand & identity!

With more than 20 years of experience, we advise our clients on the protection of **their Intellectual and Industrial Property rights** (trademarks, models and industrial designs, patents, and copyrights). Our team of experts is comprised of attorneys and Industrial Property agents, who assist clients, both locally and internationally.

At **Ojam Bullrich Flanzbaum** we adopt a macro perspective of the Intangible Assets of our clients. We design a comprehensive plan that includes the protection of know-how, secrets, confidential information, personal data, reputation and clientele, image rights, among others.

Let's develop a protection strategy together!

PROTECTION

DEFENSE

We have the team and expertise required to advise our clients on the defense of their Intellectual and Industrial Property rights and Intangible Assets, both in Argentina and worldwide. We provide **creative and innovative solutions** from a business perspective.

**Know your rights
and count on us to defend them!**

Audit: We advise our clients in audit processes (*due diligence*), assisting in the investigation, analysis, and valuation of Intangible Assets, as well as in the negotiation of all types of related agreements.

Valuation: We have a team specialized in the valuation of Intangible Assets through different accounting methods (Royalty relief, BFinance, CAPM, RCM, multipliers, replacement value, etc.)

**Tell us your goals,
we want to walk with you!**

Naming

If you are thinking of a name for your project, you can count on us!

Our experience in advising multinational clients, SMEs, and entrepreneurs allows us to clearly identify the story that each brand wants to tell.

We help founders name their companies, products, and services.

The name of a project is the first step towards its own identity, like our name, which makes us unique and unrepeatable. Such is the relevance that the process of selecting a brand name for your project (Naming) has for us.

What message do we want our product or service to convey to the market? What audience do we want to reach? How do we want our clientele to feel? Where do we want to position ourselves in the market and with respect to our competitors? These are some of the questions that we need to ask ourselves when developing your brand together.

The life of your business, starting with its name, needs the protection and care that we can provide – and enjoy doing so!

Drop us a line and let's name your project together!
